Project Description:

Myro Pepe: the epic fusion of Myro and Pepe memecoins, promising stratospheric appreciation potential. With a unique strategy, 100% of the purchase fees will be used to burn the \$MYROPEPE token, creating a scenario of scarcity and constant increase in value. Get ready to be part of a revolution in the cryptocurrency universe with Myro Pepe!!

GOOD

Note:

Before making any investment decision, we strongly recommend that investors conduct their own research. This audit report is an assessment of smart contract security. It is important to note that our analysis only covered one token contract of the team, and we did not perform functional tests (or unit tests) to verify the logic of the contract. The other contracts related to the project were not audited by our team.
